

PREMIUM CORDAGE

COVER CONSTRUCTION:

- 100% continuous filament high tenacity Type 6 Nylon
- Coloured nylon yarns are solution dyed for colour fastness and reduced fading.
- Cover yarn has extra twist to improve abrasion resistance and strength
- Braided cover is torque balanced to increase strength and reduce rotation under load

CORE CONSTRUCTION:

- 100% continuous filament high tenacity Type 6 Nylon
- Braided core is torque balanced to increase tensile strength and reduce rotation under load

- Double braid nylon rope is easy to handle and spliceable
- UV resistant nylon: resists most chemicals and will not rot or mildew
- Twisted twill yarn to improve abrasion resistance
- Exceeds Cordage Institute standards for strength
- Heavy duty reusable storage strap

- Professional hand spliced eye—the splice is stronger than the rope!

- Bitter end is heat sealed to prevent fraying and protected with an overall non-corrosive flexible polyolefin shrink tube
